Niklas Stelzer.

Staudingerweg 9, 55128 Mainz, Germany

nstelzer@students.uni-mainz.de

Updated November 2026

Research Interests

Homotopy theory, algebraic topology, algebraic geometry and their interaction. I am currently working on the étale homology of étale Eilenberg–Mac Lane spaces.

Education

Oct 2024–present
M.Sc. in Mathematics, Johannes Gutenberg University Mainz (JGU)
Expected graduation: April 2027.
Master's thesis (in progress): Hopf-Ring Structure in the Étale Homology of Eilenberg–Mac Lane Spaces.
Advisor: Tom Bachmann.

Oct 2021–Sep 2024
B.Sc. in Mathematics (grade: 1.3), JGU
Bachelor's thesis: Semisimple Complex Lie Algebras: Serre's Theorem and Applications.
Advisors: Manfred Lehn and Moritz Rahn.

Winter 2024/25
Erasmus+ exchange semester, University of Agder
Kristiansand, Norway.

Selected Talks

04/2026
Dieudonné Complexes (Part II)
Research seminar on the de Rham–Witt complex, JGU.

02/2026
Introduction to ∞-Categories
Preparatory course for the winter retreat on algebraic K-theory and chromatic homotopy theory, JGU.

11/2025
Frobenius Modules
Research seminar on the Riemann–Hilbert correspondence in characteristic p, JGU.

Teaching Experience

Summer 2026
Teaching Assistant, Linear Algebra and Geometry II
JGU · Tom Bachmann.

Winter 2025/26
Teaching Assistant, Linear Algebra and Geometry II
JGU · Moritz Rahn.

Summer 2025
Teaching Assistant, Linear Algebra and Geometry II
JGU · Cynthia Hog-Angeloni.

Summer 2024
Teaching Assistant, Linear Algebra and Geometry I
JGU · Moritz Rahn and Anton Malevich.

Scholarships & Academic Programs

2026–present
Excellence Track in Algebra (ETA)
Selected participant.

2022–present
Scholarship holder, Friedrich-Ebert-Stiftung (FES)
